House on Heath Street
Tickets are £8 (£5 for stu-
dents and unemployed). To
book, call 020-7794 5229.

Princess Soraya Salon offers

Non Surgical Eye, face, Neck, bust and Body Lift using the most powerful machinery and products from France.

SUPER LIFTING FOR EYES, FACE, NECK, BUST AND BODY

- Overcome Sagging muscles, wrinkles, bags and old age without undergoing knife and plastic surgery.
- Super Lift machinery is the only machine based salon facial that combines lymph drainage, skin cleansing, removal of dead skin cells, muscle strengthening, and balancing the PH of the skin.
- Finally, eyes are covered by a special Collagen and Caviar mask to regenerate the cells and lift the muscles. Fresh Collagen mask is applied to the rest of the face, neck and forehead to hydrate, lift and tone the muscles.
- The results are visible after the first session. After 6 sessions there is a 57% reduction in the depth of lines and 47% increase in overall firmness.

The procedure is as follows:

- The area to be treated is cleansed and the dead skin is removed using galvanic desincrustation current.
- The lymph, toxins and waste material is drained using special machinery. These are later excreted from the human body when they use the bathroom.
- Using Lifting Currents on the machine, we exercise the eye and facial and Bust muscles. The sagging muscles will be lifted and toned, the wrinkles will be reduced. There are no injections or knives used.
- Collagen gel is applied and using Galvanic Ionisatin current, the product is deeply absorbed by the skin. The acidity or PH of skin is balanced by the machine.
- Fresh Collagen Mask is applied all over the face, eyes, neck and bust. This is the most effective mask on the market. It will smooth out lines and plump up the skin. The skin will look radiant, fresh and younger than before.
- These treatments are effective and relaxing. The results are permanent and the cost of the treatments is one hundredth of the cost of plastic surgery.
